GitHub: [Scott-Imandt](#)

Mail: ScottImandt@Gmail.com

Coding Languages: Java, JavaScript, Python, Assembly, C++

Education

Stony Brook University, New York - Computer Science Major

Actively Attending: August 2021 - Present

Expected Graduation Date: December 2023

Suffolk County Community College

Attended 2018-2021

Personal and Class Projects

- Establish a clear understanding of front and backend web development by Creating a **JavaScript, Mongo, Express, React, and Node** Website. Link: [GitHub](#)
- Enhanced knowledge of **Data Structures** by Creating a **Java** application that stores user and hiking trail information. Link: [GitHub](#), [PersonalWebsite](#)
- Developed a better understanding of **mobile app development** and **Wireless communication** by Creating an Android app that utilizes Bluetooth Technology to communicate with a custom Arduino Smart Blind system. Link: [PersonalWebsite](#)
- Gained a better familiarity with **C++** by **working as part of a team** to develop multiple Unreal Engine games and a windows application. Link: [GitHub](#)
- Gained a better understanding of **Electronic hardware** and **Network Communication** by creating a secure multi client-to-web server communication system between multiple NFR24 wireless modules Link: [GitHub](#), [PersonalWebsite](#)

Leadership Experience

Lead the development of a school website that informed students of current events and school-related information. The website was designed using **Google Firebase and calendar API** so that faculty without coding experience can update events. **Experience such as participation in faculty meetings, live demonstration of product to over eighty faculty members, and individual meetings with the Superintendent of schools.** This opportunity allowed me to develop my professional self and establish a greater understanding of working with clients to deliver a product.
